

YOUR INVITATION TO GET ON BOARD...

NOOSA EV & ELECTRIFY EXPO

SUNDAY 16 JUNE 2024

**SPONSORS & EXHIBITORS
PROPOSAL**

IN PARTNERSHIP WITH

WHAT IS THE NOOSA EV & ELECTRIFY EXPO?

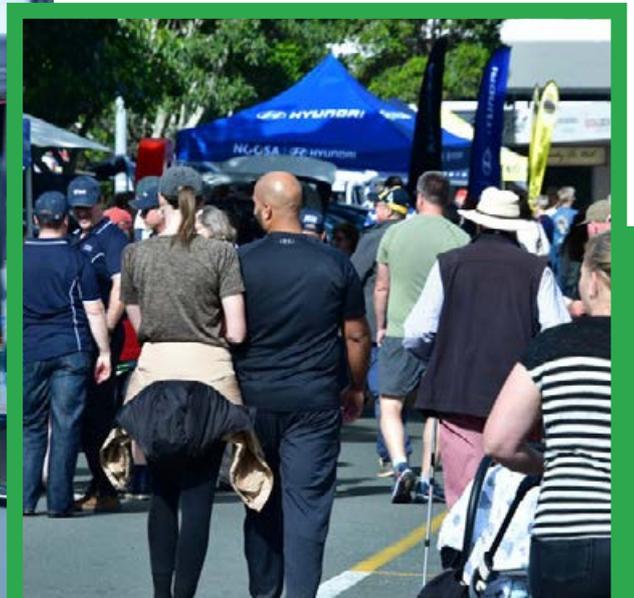

How to electrify everything and save money on your energy bills!

On Sunday 16 June 2024, there will be a renewable buzz about the streets of Noosa Junction as the Noosa EV & Electrify Everything Expo takes over the entire precinct!

The **FREE** community festival is a hands-on introduction to EV transport innovation and electrifying everything to reduce your energy costs.

The festival will introduce audiences to industry experts and suppliers who will share their experiences, ideas, products and knowledge from the expo stalls, product displays, test rides and demonstrations.

A series of fun and interactive zones that will inform and entertain attendees with stalls, displays and hands on fun!

“The Noosa EV Expo was the catalyst for me/my family to start the process of buying an EV car. It was really helpful to be able to meet and talk with many different EV car companies on the day.”

— Andrew Fairbairn, Visit Sunshine Coast

NOOSA EXPO IS GROWING AND CHANGING

Since 2018, Noosa EV Expos have been an initiative of Zero Emissions Noosa Inc, a not for profit organisation committed to the goal of net zero carbon community emissions in Noosa Shire.

The 2022 & 2023 Expos saw 5,000 visitors from SEQ, embrace the event and the festival atmosphere in Sunshine Beach Rd., Noosa Junction. Visitors wandered between the 62 exhibitors, including electric cars at all price points, e bikes, e scooters, electric mopeds, motor cycles, buses, trucks, community groups and electric vehicle charger companies, as well as trying out e bikes & e scooters in a dedicated and safe trial ride area.

The 2024 Expo will follow the same format, but visitors will also be able to see by electrifying everything how they can save money on hot water heating, air conditioning, pool heating & pumps, solar & batteries, LED lighting & more.

THE NOOSA EV & ELECTRIFY EXPO AUDIENCE

- Commuters, cyclists and micro mobility users
- Influencers and early adopters - those likely to lead, trial, buy
- Sustainably minded families and individuals
- People wanting to save money on their energy bills. by electrifying their homes/businesses with energy efficient appliances

“The Noosa EV Expo held in 2023 was a very well attended event with great sales on the day. I also had great follow up enquiries. I’ve already booked my stand for 2024. Looking forward to another great event.”

— Darren Walters, ecoTekk Electric Bikes

HOW THE EXPO CAN BENEFIT YOUR BUSINESS?

Together our strategic partnership will benefit your business by :

- Exposing your brand and products to a sustainability- minded audience reaching over 5,000 individuals through logo positioning on key assets -website, program, media, advertising and newsletters
- Exposing your brand through tailored digital media to over 35,000 people through Zero Emissions Noosa Inc., Tourism Noosa, Noosa Junction Association and Noosa Council platforms and channels
- Creating a unique opportunity to connect with Noosa, Sunshine Coast, SEQ locals and interstate visitors at the event
- Providing potential new customers to experience your product offering
- Offering tailored special offers to a receptive target audience
- Aligning your business and brand with the Noosa brand and Biosphere including sustainable values and ethos
- Hosting clients and suppliers in an award winning tourism destination
